

## BioPharma Engineering Quality Policy

BioPharma Engineering's quality policy is to achieve sustained, profitable growth by providing services which consistently satisfy the needs and expectations of its customers.

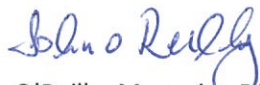

This level of quality is achieved through adoption of a system of procedures that reflect the competence of BioPharma Engineering to existing customers, potential customers, and independent auditing authorities.

Achievement of this policy involves all staff members, who are individually responsible for the quality of their work. This results in a continually improving working environment for all. Each employee is familiar with this Quality Policy.

To achieve and maintain the required level of assurance the Managing Director retains responsibility for the Quality System with routine operation controlled by the Quality Co-ordinator.

The objectives of the Quality Management System are:

- To maintain an effective Quality Management System complying with International Standard ISO9001 (Quality Systems).
- To achieve and maintain a level of quality which enhances BioPharma Engineering's reputation with customers.
- To endeavour, at all times, to maximize customer satisfaction with the services provided by BioPharma Engineering.

John O'Reilly- Managing Director
